Cutter Nowicki Tajfun KN - 125

A reliable Nowicki cutter with a bowl capacity of 125 liters - intended for meat processing plants for the production of all kinds of meat stuffing with varying degrees of grinding, fat emulsions, as well as raw skins

Price: **On request**

Description

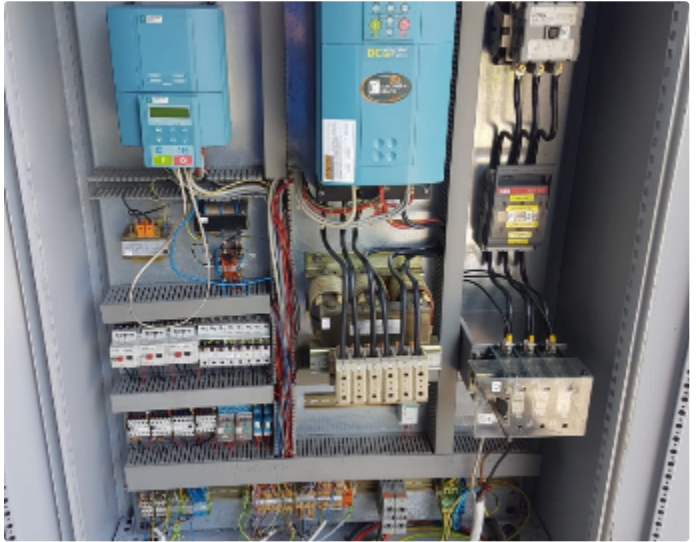

- acid resistant design
- high quality and repeatability of stuffing production
- versality: in addition to grinding, it is also possible to mix the stuffing
- high head revolutions (cutting revolutions)
- microprocessor control
- smooth adjustment of cutting and mixing rotations
- it is possible to program up to 40 technology programs
- option to choose the language of the operator panel

Bikf9moaey

stuffing ejector

- automatic water dispensing system
- effective noise suppression cover
- system of cutting knives that do not require distance adjustment from the bowl
- even crumbling of the stuffing in the whole volume of the bowl, thanks to cutting in the air
- stuffing temperature measurement
- possibility of using an engine with increased power for the production of heavy stuffing
- hydraulic stuffing and unloading
- hydraulically raised front and rear bowl lid
- monitoring system for the current operation of the machine, self-diagnosis system and sound signaling system
- comprehensive security system
- modern and ergonomic machine structure
- the design meets the highest hygiene requirements (flat surfaces inclined at an angle of 3 degrees)
- automatic central lubrication system
- surfaces in direct contact with the product are polished
- Emergency STOP for bowl drive and knife shaft drive
- elimination of current disturbances by using frequency converters of the cutter drives.
